GENERAL NOTES

The area given in the Tables is 1608 square miles which is obtained from the Cadastral Survey of the State

In Rajputana Report in Table I they have put 179 square miles as the area of the State. This is probably what is given in the Trigonometrical Survey of India

Sambhar being under joint jurisdiction of Jaipur and Jodhpur figures for Sambhar in the Jaipur Tables are for the Jaipur portion of Sambhar only. It should be noted here that there are a number of villages which belong to Jaipur alone.

The number of administrative units is the same as in the 1st Census.

There has been however a redistribution of villages in the administrative units.

- (2) 10 000 to 20 000
- (3) 5 000 to 10 000 and
- (4) Below 5 000

TABLE XVII

Occupation or Means of Livelihood

Explanatory Note

This Table is divided into three parts —

XVII A Part I is the summary for the whole State. Part II shows by City, Township and Territory the occupations or means of livelihood which were returned in the Schedules as the principal means of support.

XVII B showing population following selected occupations by sex and age periods for the city of Jasper.

The method of classification of the Census of 1911 has been adopted with certain modifications suggested by the Census Commissioner. The number of classes and subclasses remains the same but the number of groups within the orders has been amplified by raising them from 169 to 191.

The groups under which no occupations were returned have been omitted.
